1. Call to Order

Bowers.461 called the meeting to order at: 3:36 pm.

1.1. STATEMENT OF PURPOSE

Walterbusch.1 read the Statement of Purpose:

To effectively advocate and program to ensure that The Ohio State University graduate student experience is the best it can be.

Walterbusch.1 also read from the Code of Ethics.

2. APPROVAL OF MINUTES

2.1. Minutes from April Meeting

There were no requested changes to the April meeting minutes as presented.

3. Presentation regarding changes to Carmen

Liv Gjestvang, Associate Vice President, Learning Technology (was not able to attend the meeting due to a family issue).

Travis Ritter

Travis Ritter, Director of Learning Systems here at OSU, has been with OSU for nearly 10 years. Asked how many people assist with teaching courses, how many use Carmen, transition from D2L to Canvas.

Plans to go over the timeline for the transition and the evaluation.

Evaluation started last spring. Considered 3 products (Blackboard, Canvas, and D2L). Canvas was reported to be the most preferred by the faculty that piloted the system. We have had D2L for about 10 years. Hoping that as time goes by that people will grow to prefer Canvas. The interface seems to be the main appealing factor with Canvas. For Faculty, those who piloted the program seemed to like the *Clean interface, Easier course building, and SpeedGrader* function. For students, the *mobile app, grades, simplified collaboration, and Calendar* features really stood out as the popular features. The timeline for the new Canvas courses are starting now. Building most all courses are expected to happen over Fall 2016. Spring 2017 it is expected that all courses will be used with a few exemptions only. After Summer 2017, D2L will be completely gone. The university will no longer have licenses for it.

There are workshops, open office hours, and help videos at: go.osu.edu/adoptcanvas. Also adoptcanvas@osu.edu with any questions.

Trying to brand the transition of systems as a way to revise and update courses.

Q&A

Ethier.4 asked if previous course materials would be transferred from D2L to Canvas? Ritter responded that it would fall on the instructor.

Will the branding still be Carmen? Ritter responded, yes.

Puthawala.1 asked wasn't Canvas originally developed for secondary education purposes? Ritter said he has heard that. Puthawala.1 added that some of the tools are under developed at this time. The December release will improve functionality.

Wesaw.1 why is it necessary to agree to terms to be able to access Canvas sites? I don't recall having to do that with the current system. Ritter responded, not the Canvas technical expert but would try to find out more and get back to us.

Ritter asked the audience: are there particular ways that it makes sense to reach out to graduate students that we haven't so far? Bowers.461 said that for the next go around that earlier and more engaging ways would be better. There is a feeling across campus that OCIO did not respect the University's tradition of shared governance – it would have been nice to have had more engagement during the original piloting. Seems like it is a big change that avoided the whole University Senate process that the University has in place. Ritter added, that there was never an attempt to keep this under wraps in any way – our evaluation team seemed to have regular presentations with DELIT.

Grice.17 asked where to do for in-person help with support? Ritter responded, check out the go.osu.edu/adoptcanvas. He thought that Tech Hub would probably be the location. Also, added that he's happy to come back.

4. OFFICER REPORTS

4.1 President (as submitted in delegate packets)

4.2 Vice President

Walterbusch.1 said that she is excited to be here and to check out the report she submitted.

4.3 Treasurer

Wesaw.1 reported that they are still getting up and running as the Treasurer since the transition from previous Treasurer, Roger Anderson.2299, on 5/9/2016. There was no budget update. Mentioned that the Ray Travel Award now has four funding periods (previously there were three per academic year). The first funding period deadline is coming up on June 15, 2016 at 11:59 pm, for conferences between 8/4/2016-9/30/16. Lastly, what that in mind, Wesaw.1 is looking for volunteer judges for the Ray Travel Award.

4.4 Chief of Staff

There was no report from the Chief of Staff.

5. NEW BUSINESS

5.1. Election of CGS Secretary

Bowers.461 turned things over to Walterbusch.1 to facilitate the Secretary's election.

Puthawala.1 moved to postpone the vote until the June delegate meeting. Flemister.10 seconded the motion.

Gambrel.15 asked about the number of resumes in the delegate packet. Walterbusch.1 responded, some people dropped out and some are out of the country.

Ethier.4 asked if nominations would be re-opened if we postpone. Walterbusch.1 said that they would be re-opened.

Motioned passed at 4:08 pm.

5.2. Act 1617-SU-001 An Act Establishing CGS Meeting Dates 2016-17

Bowers.461 resumed facilitating the meeting at 4:09 pm.

There were no questions about the act.

Act passed at 4:10 pm.

5.3. Act 1617-SU-002 An Act Establishing the 2016-17 Standing Committees

The "Communications Committee" will now be known as "Marketing & Communication Committee" to focus on getting as close to 100% enrollment for our 130 CGS Delegate seats. Otherwise, all the committees will be the same as they were in Academic Year 2015-2016.

Act passed at 4:11 pm.

5.4. Act 1617-SU-003 An Act Amending the Standing Rules regarding Delegate Service Requirements

Current Standing Rules calls for Delegates to serve on 2 committees (one internal and one external). The change seeks to lighten the load on current delegates and bring in more graduate students into the organization. Additionally, we hope that the engagement will increase people's capacity to serve where they are assigned.

Question was raised to clarify what the language of the Act means when it says "University external committees."

Question was raised, asking if this reduces our representative-ness across the University.

Concern was raised to communicate better committee assignments, a better committee list, etc. Bowers.461 reported that there was a meeting this week to discuss committee assignments and this issue was raised and is being addressed. Walterbusch.1 added that if anyone else had/has any communication issues in the past to please let her know.

Concern was raised about whether this would lessen participation on internal committees.

Question was raised as to whether this would help our recruitment of new delegates.

Bowers.461 mentioned that he hopes to have Committee Chairs to report out to Delegates, at the first Delegate meeting in the fall, what exactly their committees do.

Act passed at 4:25 pm.

5.5. Any Delegate Issues and Concerns

Ethier.4 asked about the previous concerns with TA hours and safety. Bowers.461 responded, that he heard from three people following the last delegate meeting and that he raised this issue with the Graduate School. Bowers.461 asked again for the body to send him expectations that departments have in writing so that we can get more information and present to the Graduate School.

Gambrel.15 added that when there is a situation where students are concerns for their safety, those concerns should be reported to Student Conduct Board to address the concern. Puthawala.1 added that as a Graduate TA, any issues that are violations of the Student Code of Conduct should be reported to the COAM. Pierce. 508 added that he felt that if we have this many questions, there this is probably something that should be addressed in the future.

6. ANNOUNCEMENTS

6.1. June Meeting: June 24th 3:30 PM Ohio Union Senate Chambers

Adjourned at 4:31 pm.

Greetings! I am going to have to miss our June meeting because I'll be at a conference, but our VP Tracey Walterbusch is all set and ready to chair the meeting. Also, we will NOT hold the July Delegate meeting, so the next meeting (after June 24) will be August 26th.

- Summer's certainly moving along! It's difficult to believe that we're already moving through mid-June! I am pleased to report that the 2016-17 officer team has picked up and continued the great work began by last year's team.
- As you most likely heard, Dr. Bruce McPherson was appointed as our new Provost. Many thanks to Marcos Rivera for representing CGS on the search advisory committee. Both Tracey, our VP, and I were included in the interview teams for the finalist candidates. It was exciting to meet those candidates, all of whom were amazingly qualified. Having had the opportunity to get to know Dr. McPherson a little bit during his time as interim provost, I can tell you that I have tremendous faith in his abilities and commitment to our university as well as a keen concern for graduate students and all that we bring to the campus community. I look forward to working with him in the coming year.
- We recently learned of the new student health plan rates for the 2016-17 year. Although increases are never welcomed (\$100./term for domestic single student); we avoided a new and higher "graduate student" premium level—once again all students are charged the same rate for the same coverage. In past years international students enjoyed a lower premium rate, but aspects of the Affordable Care Act required that going forward they pay the same as other students. When I asked about this, administrators reported that they didn't have a choice in making that change. Although the 2016-17 benefits have not yet been announced, I have heard that some of the things lost in last year's program change are likely to be restored. Once Student Life officially posts the benefits schedule we'll alert you. BUT you can always check the Student Health Insurance website <https://shi.osu.edu/>.
- In my most recent conversation with President Drake he reiterated his appreciation to CGS for our leadership on the new Implicit Bias and Diversity programming and expressed hope that, even as we move that towards more permanent footing through Student Life, CGS remain involved. I once again invited him to address the Delegate body, and I am pleased to report that he will be speaking to us at our November meeting.

- Elsewhere in the packet you'll find an initial report from the ad hoc committee on the comprehensive energy management plan. I appreciate the work of the committee, and especially chair Hoda Hatoum, on that effort.
- You'll note that the 2016-17 proposed budget is included in your materials. Our treasurer Alex Wesaw will lead the discussion at the meeting next week, but I wanted to point out a couple of things:
 - Although the overall amount is slightly lower than last year, we are able to maintain the level of funds available through our grants program—this is because the reductions are coming from funds we are not allowed to award as individual grants. We also keep committees' budgets consistent with their needs from the past year.
 - There is a new \$5000 income item (and corresponding expense item) for the National Association of Graduate and Professional Students mid-west regional conference. NSGPS would like us to host this event next spring. If we do, there will be some cost involved. Thus I'll be seeking some extra funding to enable us to take on this project. If we can't find the money, then we'll politely decline the opportunity to host.
 - The budget includes funds for 5 officer parking passes. In past years we left the Chief of Staff without a pass. This last year, when one other officer did not require a pass, CGS delegates voted to make that 4th pass available to the Chief of Staff. Because the expectations for work are similar, and we're allowed to provide 5 passes, I believe this is a fair provision to make for all our officers. I hope you'll agree. And if you don't agree I hope you'll share your concerns with the meeting.
- Finally, I am pleased to inform you that we have chairs lined up for most of our 2016-17 committees! For the remaining couple, I have some potential folks in mind, but thus far we have:
 - Arts and Culture: Janet Schroeder
 - International Student Concerns—Yanty Wirza
 - Grants Admin (CDG & Global Gateway)—Olga Kondratjeva
 - Marketing & Communications—Matthew Connolly
 - Health & Wellness—Laura Hopkins

I hope you enjoy a productive (and enjoyable) rest of the summer! Even though the delegate meeting won't take place in July, I am around and available. So if you have some time and have anything you'd like to talk about, ask about or simply opine upon, please shoot me an email. I'd love to chat with you!

David

June 2016 VP Report

Thanks to the Delegate Body

As this is my last CGS meeting with the 2015-16 team, I'd like to thank the delegate body for its amazing work over the past year. I'm honored to represent such a diversity of graduate students from across the University and to be part of such an important organization. Please don't hesitate to let me know if you would like to stay involved formally or informally. Or, additionally please reach out, if you have feedback for us in the future.

Hayes Forum

Hayes Forum is officially scheduled for March 3, 2017. I have started working through the timeline of events and updating some of our marketing materials.

Officer Elections

Our Secretary position for the 16-17 year will occur tonight.

Our applicants are:

Sahra Ahmed
Annelise Antonucci
Nivedita Bhaktha
Corolin Mueller
Cailtin Mullins
Erin Osborne
Swati Vijaya

Delegate Elections

Please reference the website and last week's meeting minutes for 2016-17 Delegate Information.

The Comprehensive Energy Management Project committee met in May 13 2016. The members who attended the meeting were Christopher Pierce, Robert Vandenberg, Alex Wesaw, Rachel Smith, Ashley Toenjes and Hoda Hatoum in the presence of David Bowers. The committee discussed the CEMP latest status stemming from the information provided on the Energy Management website and the responses that Dr. Jennifer Cowley of the office of academic affairs had for the questions raised previously by the United Students Against Sweatshops (USAS). The points discussed by the committee revolved around energy rates supervision, students' employment and tuition, different possibilities of funding, readiness to check other proposals and solutions, project duration, workers union status, scalability of the project, research dollars availability and investment, and the consequences of not reaching the intended goal. These concerns and questions were formulated in a progress report to be discussed with Dr. Cowley and a senior energy advisor from the Office of Energy and Environment. The committee will gather after the June CGS meeting to discuss the responses of the concerns raised.

EXPERIENCE

Teaching Associate OSU

Univariate and Multivariate Experimental Design August 2015-May 2016

- Co-teach the course by conducting an interactive lab session using SPSS and R and summarize the lecture taught by the professor. Design examples, assignments, and notes along with managing the course website and grading projects. Help students with univariate and multivariate analysis for their research.

Intern OSU

EHE Research Methodology Center October 2015- 2016

- Assist the Director of the Center, Dr. Ann A. O'Connell in analyzing RISE and LARRC dataset by using exploratory and confirmatory factor analysis for scale validation using SAS and SPSS. Build latent mixture models for LARRC data using Mplus and prepare a manuscript for publication. Assist in organizing the methodology workshops.

Research Associate OSU

College of Public Health, Biostatistics May 2015- August 2015

- Assist Dr. Stanley Lemeshow with the analysis of hospital survey dataset by building Logistic models for hospital ratings and various other characteristics for good patient care using STATA. Compare and test the proposed logistic model with the existing score based and regression models.

Teaching Associate

OSU

Coursera

March 2015 - July 2015

1. Applied Linear Regression
2. Applied Logistic Regression

- Help prepare the two MOOCs by transcribing video lectures, preparing assignments, quizzes and course materials such as weekly narration, definitions, lecture notes etc. Reply to the questions posted by the students and also provide suggestions for their research. Prepare and analyze the course satisfaction surveys.

Teaching and Research Associate
