

The Ohio State University campus uses **1,364,271,216 gallons of water** per year. That's enough to fill the Horseshoe twice over!

How is OSU planning on reducing its water usage?

Join SERC in collaboration with Fisher's Net Impact to learn about OSU's sustainability initiatives, goals, projects and action plan to reach carbon neutrality by 2050!

November 13, 2014

Gerlach Hall 365 from 12 – 1pm
